

RAVENOL Diesel Cetane Booster

Kategorie: Additives

Artikelnummer: 1390249

0.3L | 1390249-300

RAVENOL Diesel Cetane Booster is a fuel additive for all diesel engines for improving ignition performance.

RAVENOL Diesel Cetane Booster increases the cetane rating of the diesel fuel depending on the dosage and therefore, increases engine performance.

RAVENOL Diesel Cetane Booster reduces engine noises and provides for a clean combustion.

RAVENOL Diesel Cetane Booster enables saving fuel and reduces emissions.

Application instructions

RAVENOL Diesel Cetane Booster is added to the diesel fuel before refueling.

Area of application:

Diesel engines in passenger cars and lorries

Use with each tankful, to improve performance

Application: Pour the contents of the container into the full tank. The ideal dosage is a can of **RAVENOL Diesel Cetane Booster** per 60-75 litres of diesel. Note: The dosage depends on the cetane rating of the initial fuel used and the desired cetane rating in the ultimate fuel.

RAVENOL Diesel Cetane Booster can also be used in bio-diesel (e.g. HVO) or mixtures of diesel fuel with bio-diesel.

RAVENOL Diesel Cetane Booster is an additive, which improves ignition performance of diesel fuels in the low-aromatic hydrocarbons and increases the cetane rating

Characteristics

- Improved cold start performance and ignition quality
- Saves fuel
- Reduces emissions
- Clean combustion of fuel
